Patent Self-Adjusting Plow.

The adjusting of the Fence to this Plow will be found a great improvement over the old style of Plow. It is simple in its construction, easily and accurately adjusted; as all projections are on the left hand side, the mechanic is not obliged to remove his tools from the work-bench in order to use it.

This attachment is applicable to all Screw Arm Tools.

Annexed is a list of the most saleable numbers, (the Nos. corresponding with Nos. of List.
